

MAXX™22T AIR DISC BRAKE FOR SCHMITZ CARGOBULL TRAILERS

The MAXX™ range introduces WABCO's new and improved MAXX™22T, which is specially designed for trailers and has been used for series production by Schmitz Cargobull AG since July 2013.

Brake MAXX™22T	Product number	
	WABCO	Schmitz
Brake left	640 222 001 0	1156800
Brake right	640 222 002 0	1156802

Brake MAXX™22T

SAFETY FIRST

MAXX™22T is equipped with a new monoblock brake calliper and a reinforced single-piston clamping unit which allows high braking torques of up to 21.000 Nm to ensure top driving safety.

FUEL SAVING

MAXX™22T further improves the weight-performance ratio of WABCO's single-piston PAN™ trailer braking technology, recognized as one of the industry's most successful air disc brakes.

A weight reduction of up to 4 kg (-11 %) compared to the previous generation of trailer brakes has an effect on fuel consumption and thus helps to protect the environment.

PATENTED AND PROVEN SPARE PARTS CONCEPT

MAXX™22T spare parts concept has been developed on the basis of the proven PAN series concept.

Regular checks and maintenance using WABCO original spare parts ensure lasting problem-free operation.

- Patented retaining springs ensure that the pads are secured in their operating position
- Replacement flexibility: the de-adjuster unit and the end-of-life wear sensor can be replaced individually.

Spare Part	Product number		Remarks
	WABCO	Schmitz	
Replacement brake MAXX™22T (without brake pads)	640 222 003 0 640 222 004 0	1199856 1199857	Brake left Brake right
