

New ABS Mini Sensors for the Aftermarket

WABCO has released ABS mini sensors with MAN truck applications for the Aftermarket.

The WABCO mini sensors provide the ideal solution in axles with disc brakes when space is limited.

Made specifically for disc brake applications, the new mini sensors work in the same way – and features the same straightforward plug-in concept as the WABCO S_{PLUS} sensor but has significantly smaller dimensions and weigh less than half as much.

Benefits

- Especially made for disc brake applications
- The same plug-in concept as S_{PLUS} sensor
- Smaller dimensions
- Less weight
- Integration in the wheel bearing.

ABS mini sensor

Below you can find the overview of WABCO and MAN part numbers:

Overview ABS Mini Sensors		
AM Part Number	Original WABCO Number	MAN Part Number
441 032 296 0	441 032 283 0	81.27120.6182
441 032 297 0	441 032 284 0	81.27120.6183
441 032 298 0	441 032 285 0	81.27120.6184
441 032 299 0	441 032 286 0	81.27120.6185
